SKILLS

- **Languages**: C, C++, Java, JavaScript, TypeScript, HTML
- **Frameworks/Libraries**: React.js, Tailwind CSS, Vite, Node.js, Express.js
- **Tools/Platforms**: Git, GitHub, GitHub Actions (CI/CD), Docker, n8n, Postman
- **Soft Skills**: Problem Solving, Adaptability, Leadership, Project Management

INTERNSHIP

Full Stack Intern | VANILLAKART | Certificate

- Developed a **full-stack doctor appointment platform** using **MERN stack**, enabling **real-time booking**, schedule management, and **JWT-based authentication with role-based access control**.
- Built and optimized **RESTful APIs** using **Node.js and Express**, integrated **MongoDB**, and ensured **secure and efficient data handling** across the application.
- Designed a **responsive and user-friendly UI** using **React and Tailwind CSS**, improving **user experience and application scalability**.
- Tech Stack: MongoDB, Express.js, React.js, Node.js, JavaScript (ES6+), JWT, Tailwind CSS

PROJECTS

Quick-Stay Hotel Booking Platform | GitHub | Live August 2025 – November 2025

- A **full-stack booking platform** enabling users to **search, book, and manage hotel reservations**.
- Developed **RESTful APIs** and **responsive UI** for hotel booking, user management, and reservations.
- Built **Admin and Owner dashboards** with **full CRUD functionality** for managing hotels, rooms, and bookings.
- Implemented **authentication using Clerk (OAuth)** with **role-based access control** and session management.
- Optimized image handling using **Cloudinary** and improved **state management using React Context API**.
- Tech Stack: React.js, Vite, Node.js, Express.js, MongoDB, Clerk, Stripe, Cloudinary, Nodemailer.

ChatSphere – Real-Time Messaging Platform | GitHub | Live March 2026

- A **real-time messaging platform** supporting **live communication** and **user presence tracking**.
- Built a **real-time chat application** using **MERN stack** and **Socket.io** supporting private messaging and live communication.
- Implemented **JWT-based authentication** with **secure password hashing** and **protected API routes**.
- Developed **real-time features** like **online/offline status, typing indicators, and message broadcasting via WebSockets**.
- Implemented **CI/CD pipeline** using **GitHub Actions** for **automated build and deployment**.
- Tech Stack: React.js, Node.js, Express.js, MongoDB, Socket.io, JWT, Docker, GitHub Actions.

TRAINING

Full Stack MERN Development Training – Lovely Professional University | Certificate | Live June 2025 – July 2025

- Completed **Full-Stack MERN training** covering **React, Node.js, Express, MongoDB, and REST APIs**.
- Built **full-stack applications** with **responsive UI, API integration, database design, and deployment**.
- Developed a **platform allocation system** using **interval trees and priority queues** for **conflict detection and scheduling**.

CERTIFICATES

- Frontend Developer - React | HackerRank | Certificate October 2025
- Master Generative AI & Generative AI Tools| Infosys | Certificate September 2025
- Problem Solving | HackerRank | Certificate October 2025

ACHIEVEMENTS

- **Data Structures & Algorithms Excellence** **December 2025**
  Solved 500+ coding problems across LeetCode, GFG, and HackerRank
- **LeetCode Performance** **October 2025**
  Completed 200+ problems on LeetCode
- **Multi-Language Coding Proficiency** **September 2025**
  Achieved 5★ in C++, 4★ in C, and 3★ in Java on HackerRank

EDUCATION

Lovely Professional University Punjab, India
Bachelor of Technology Since August 2023
Computer Science and Engineering; CGPA: 7.49

Kendriya Vidyalaya BHU, Varanasi
Intermediate; Percentage: 82% April 2021 – March 2022

Kendriya Vidyalaya BHU, Varanasi
Matriculation; Percentage: 83% April 2019 – March 2020
